This thread discusses the Content article: Printing museum honors Constitution

What, Orin Hatch wasn't invited to espouse the benefits of scrapping the constitution by way of a Constitutional Convention?

Back when Utah Legislators finally pulled their collective heads out of their LDS backsides and figured out a Constitutional Convention would allow for the constitution to be scrapped and practically anything put in its place, Orin Hatch, being the loyal globalist shill that he is, was up at the Utah legislature every year twisting arms in an attempt stop a drive to withdraw Utah's previous call for a convention.

The current scam to scrap the constitution, supported by both Orin "scrap the constitution Hatch" and Chris "no borders" Cannon, is through trade agreements in an attempt to fast track a North American Union, consisting of the U.S., leftist Canada, and corrupt Mexico, modeled after the European Common Market's transition to the current European Union.

If this is how "The Brethren" at Temple Square plan to save the constitution when it "hangs by a thread", then the people of Utah deserve the fascist police state they're about to get!
