## Utah is going to a 4-day workweek

Posted by joyce - 2008/07/04 17:29

---

This thread discusses the Content article: Utah is going to a 4-day workweek

What will this mean for the county health dept? particularly I am worried about the vital statistics office where deathcertificates are filed.

I know cities have been toying with the 4day workweek. Are counties considering it too?

Wow! That is very interesting. I agree with Joyce, what will it mean for the health department... And how will it effect the State on a general level?
