This is just wonderful news for people like Utconman and prisonpiggy. For you two now, the bar has been raise and more is expected out of you. Which means less time for you guys on this forum. Best of luck to you.

Woody, Woke up on the wrong side of the park bench?

Do not despair as "special needs" persons can get a job at a employer who participates in challenged persons on disability.

Here is an interesting view at the minimum wage demographic:

Seems most are not the income earners for their families. Raising the minimum wage appears to mostly help teenagers and young adults still living at home.

...and all I got this year was \$.50! That makes a net loss of \$.20.

Yep! Proof once again that for every federal increase my wage decreases in like quantity making me that much closer to the minimum wage my DAMNED self.
It isn't that the floor keeps lifting, the damned roof ain't moving at all and for some reasons actually falling into the cellar.
Thank a Lib!
