
Pittsburgh cancer center warns of cell phone risks

Posted by Wilbur - 2008/07/24 10:16

This thread discusses the Content article: Pittsburgh cancer center warns of cell phone risks

The fear mongers are at it again... How many years of cell phone usage before we can nail the coffin shut on this?

=====

I don't have one. I don't want one.

I won't get one unless I'm made to.

Brain cancer is one thing, being on an electronic

leash is another. (I guess I'm just not the

sociable type). :lol:
